Locate text in context
Context!

tech. for
foreground

→ relate to work's themes, motifs, characters, time, space, setting

3.2
The liability of the device, scanner,
Book

Reinhold: I consider the paratext as an
ultimate defence against the
liability of our dip. relations,
as well as part of any work

Starting Point: What remains if a work is lost

3.3
Locate the text, its context
in paratexts
